

## Jamming In The Park 2007

by *Eddie Alvarado*

Jamming In The Park has been a huge success thanks to participating musicians who showed up to Jamming In the Park (New York Central Park style).

Early May of 2007, John Diaz and I were driving around and he mentioned why don't we get as many musicians from the area and start a music jam session. We brought the idea to our friend Rudy Robles and he agreed. The idea worked. A jam session, which started a few weeks ago with eight musicians, had over 20 musicians. Two musicians who arrived from Gainesville, left excited.

The music caught the eye of club owner Little New York Nite Club in downtown Ocala. He invited the entire jam session to perform in his club on Saturday, Oct. 6, which is located on Pine Avenue next to the Ocala Police Department.

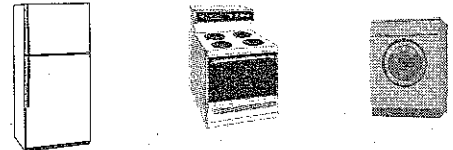

This is a good way to bring families together towards the end of a long week just to relax and talk about the good old times. We are not only entertaining residents of the community, but also reminiscing of the good old youth days in New York City-Central Park.

The kids were in "awe" just watching mom and dad playing an instrument. As I observed the kids, I knew that our mission is being accomplished. We are strengthening their community involvement through our music and culture.

Future scheduled jam sessions are Sunday, Nov. 11, Dec. 9, Dec. 23 and every other Sunday thereafter from 4-6 p.m. behind the Marion Oaks Community Center. Everyone is welcome.
